This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

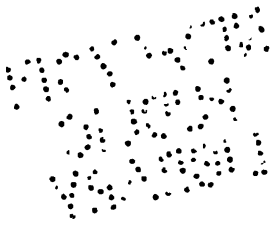
MEN OF INDIANA

IN NINETEEN HUNDRED AND ONE

THE BENESCH PUBLISHING COMPANY
INDIANAPOLIS, IND. CLEVELAND, O.
1901

THE NEW YORK
PUBLIC LIBRARY
2744064
ASTOR, LENOX AND
TILDEN FOUNDATIONS
R 1926 L

COPYRIGHTED 1901
BY
THE BENESCH PUBLISHING CO.



Publisher's Announcement

"MEN OF INDIANA IN 1901" needs little or no introduction or preface. It presents the portraits of the representative men of the State of Indiana. No work of this character can be absolutely complete or perfect, and in several cases names are unavoidably omitted owing to the impossibility of securing portraits, although the date of publication was delayed to obviate this as far as practicable.

Between the covers of this volume will be found pictures of men who have distinguished themselves in all the leading professions as well as in the manufacturing, wholesaling, jobbing and retailing industries.

Below each name will be found a brief title or description. For purposes of uniformity these titles are limited to 2 to 4 lines

Internet Archive 12 Oct 1926

and an effort has been made to select such descriptions as are most up-to-date and distinctive. To have enumerated every past and present office of some of those whose pictures are given would have required nearly a page of space, and would have changed the work from a presentation of portraits to a collection of biographies.

An alphabetical index of portraits is appended. In the body of the work the classification is as accurate and complete as was possible to make it, but in a state of aggressiveness and public spirit, in which the leading men aid and respond to every movement for the common good, and where exclusiveness is the exception rather than the rule, no plan of classification by trades or professions can be invariably followed.

"Men of Indiana in 1901" is the result of careful and painstaking work, and will be preserved as a work of reference for generations to come. Never before has so complete a work of this character been published in Indiana, and it will be in almost daily use in newspaper offices and libraries as well as in the homes of subscribers, etc. Many of those

who examine it will find accurate and artistic portraits of many of their personal friends and acquaintances. To make such a collection in the ordinary way would involve weeks of labor and a large outlay of money.

As to the photographs, more than one-half were made by the well known galleries of Mr. W. H. Potter and Pike & Hoadley, Indianapolis, who made special sitting for this work wherever possible.

While the work is not absolutely complete nor perfect, the publishers hope that in its entirety the collection will merit the approval of the public.
